PROGRESS ENERGY
INTERNSHIP PROGRAM

intern

This summer, build a powerful future.

At Progress Energy, a Fortune 500 energy company with more than \$9 billion in annual revenue, we're looking for a few energetic, hard-working college students to help us meet the critical energy needs of our growing service regions through our Summer Internship Program. As an intern, you'll not only gain exposure to a wide range of technical and operational opportunities, you'll also acquire critical insight into our company and our industry, as well as have the chance to develop valuable networking connections, which will help prepare and develop your skills for future career opportunities.

Requirements

- Outstanding interpersonal skills
- Strong customer focus capabilities
- Strong analytical and critical thinking abilities
- Flexibility to handle multiple projects with ease
- Must thrive in a fast-paced, constantly changing environment

Available Opportunities

Internships may be available in the following areas:

- Nuclear Generation
- Power Operations
- Energy Distribution
- Energy Transmission
- Service Company (Finance, Human Resources, Information Technology and Telecommunications or Supply Chain)

Progress Energy Summer Internships

- Are paid positions
- Run from May to August
- Require a 40-hour/week commitment, Monday – Friday
- May be located in the following areas:
 - Florida (St. Petersburg, Crystal River, Lake Mary and surrounding areas)
 - North Carolina (Raleigh, Wilmington, Southport and surrounding areas)
 - South Carolina (Hartsville, Florence and surrounding areas)

“The expertise of the engineering staff, their friendliness and willingness to help me learn was outstanding. The challenges, learning opportunities and ability to contribute to multiple very important projects made for a rewarding experience.”

– Danny, Nuclear Generation Intern

“The culture at Progress Energy is something that really appeals to me, making it easy to see myself working with Progress Energy in the future. All of my co-workers have been open to teaching me about both the company and the industry. As interns, we have had many opportunities to see a lot of what Progress Energy does, from power generation to customer service, which is what I was hoping to gain from my summer internship experience.”

– Sarah, Distribution Intern
