

WHAT DO YOU GET WHEN YOU ADD UP OUR **ENERGY-SAVING TIPS?**

ENERGY
SAVING
TIPS

Turn your household appliances into cash machines. Just try these energy-saving, bill-lowering tips: **1)** Use a microwave instead of the stove; it uses 30 percent less energy. **2)** Set your thermostat a little higher during cooling season and save 7 percent to 10 percent for each degree above 78. **3)** Have your air conditioner serviced regularly so it operates more efficiently, delivers better comfort and lowers bills.
