

Business Energy Check

Learn how to lower your bill
and get valuable incentives.

Schedule your **FREE** Business
Energy Check today.

Have you scheduled your complimentary Business Energy Check?

As a Duke Energy business customer, you are eligible to receive a free on-site energy assessment, which includes:

A site visit

A certified Business Energy Advisor will conduct an on-site analysis of your energy use, including a comprehensive survey, and then discuss the results with you.

Bill-lowering recommendations

After the visit, you'll get a detailed report containing information on your usage as well as tips on low-cost and no-cost ways to lower your energy use.

Information on rebates

Your Business Energy Advisor will identify energy efficiency measures that you could implement to qualify for valuable incentives from Duke Energy.

A FREE energy savings kit

At your site visit, you'll also get a free **Commercial Energy Savings Kit** containing two LED Par 38 bulbs, two green power strips and two faucet aerators.

Rebate program overview

Our dedicated team of Energy Advisors is ready to help your business integrate energy-saving systems into both existing and new construction. Please contact your Duke Energy Advisor to see if you qualify for these money- and energy-saving programs:
